

## Company

To enable our customers to find in one company, the ability, expertise and experience to deliver the optimum return on all ICT infrastructure investments. I.R.I.S. ICT helps save money by matching your computer infrastructure with your usiness processes. Companies of all sizes count on us to help make the most efficient se of new and existing ICT systems.

### Businesses

today rely on the Information Technology department as the backbone of the organisation, providing each department ( HR, Finance, Production, etc ) with the necessary means to improve the service delivered, and to help the corporation achieve its objectives and outperform the competition. This increases the pressure on the IT department and makes the selection of hardware and software products, applications and services important strategic decisions.

I.R.I.S ICT has a proven track record with companies and organizations from a wide range of sectors. To enhance the relevance of our responses to our clients' specific needs, we have decided to break our services down by major business segment:

- Public sector & education
  
- Healthcare
  
- Finance & insurance
  
- Manufacturing, logistics, transportation, distribution
  
- Telecommunications, media, technology
  
- Energy & utilities
  
- Services
  
- Chemical

A good understanding of the customers' environment and needs is an absolute must today. The only way we can hope to differentiate well is to define the vision of the company to be an information technology ally to our clients.

So take a while to read our course.
